

Perspective of Professional Degree

Abroad you had a job. Now you live in Germany.

You brought your professional knowledge and qualifications here.

You would like to work in your profession in Germany. Or you want to get a training qualification.

We support you. First with a personal consultation.

What we need:

- your curriculum vitae
- references from former employers
- and information about your current situation.

We also inform you about the following questions:

- Is my qualification accepted in Germany?
- What are the opportunities and prospects for my profession in Germany?
- What other qualifications could I train for in Germany?
- What jobs are in great demand in the area I am living in?

Where to find us:

BiG – Bildungszentrum in Greifswald
Feldstraße 85, 17489 Greifswald
